## For Progress

The American worker's productivity is still the highest in the world, according to Secretary of Labor James D. Hodgson, but he points out an alarming trend. From 1965 to just a few months ago, our national productivity growth index dropped, well below that of competing nations.

During the same period Japan's productivity increased at a 13 per cent rate; the Netherlands well over 10 per cent; France's, Germany's and Sweden's all in the neighborhood of 6 to 7 per cent.

Secretary Hodgson warns, "It won't take long for the rest of the world to catch up, and we'll find ourselves increasingly unable to compete for our share of the world's markets."

Recently the President established a National Commission on Productivity to find ways to stimulate productivity growth.

Labor and management must both understand that, while productivity gains are vital, they need not and indeed should not be obtained at the cost of human hardship.

However, the American worker must recognize the only way he can increase his real wages is through increased productivity.

We really do not have a choice between quantity and quality. We must have both or we'll have neither.

## Health, Pocket Book

The problem of providing health care has been compounded by the hasty enactment and apparently uncontrollable expansion of Medicare and Medicaid. These programs are beset by administrative and management problems resulting from legislation which was inadequately planned and analyzed.

Before legislation should even be considered, these existing programs should be studied to see how they can be made more effective and their costs brought under control.

The federal government should encourage alternative health-care financing plans and the removal of legal and other barriers to improved health care systems, rather than move toward a compulsory national system.

Maximum encouragement should be given to the private health and insurance industries to develop incentive-oriented methods of health maintenance and care.

## Signs of the Times

Some political leaders tell us today that we are enjoying a period of leveling off and that everything is going to be rosy soon. How about them explaining a few things about today's economy, such as why:

A penny post card now costs a nickle.

A 10c Sunday paper costs 35c.

A nickle candy bar costs a dime and it's a rather small one, too.

A nickle cup of coffee costs as much as 20c.

A dime hamburger goes for 50c.

The government speaks in terms of billions of dollars, instead of millions.

You may have more money in your pocket but it buys consistently less.

Your taxes keep going up and up as a matter of course.

You spend more and more to buy less.

Your savings' buying power has shrunk to less than half of what it used to be.

## Snowmobile.....

(Continued from page one)

across the road. Illinois does not allow the snowmobiles on public streets and highways.

Mayor Toft noted, "It is sometimes difficult to enforce the banning of snowmobiles but of their speed. We can get your call about the snowmobile in your area, and before we get there, they can be miles away."

"If we can get the names of the operators, perhaps we can talk to them about the safety to children skating on the lake and playing in the park," the mayor added. "We have found this method helpful."

And he again told Gawecki, "you put up the sign, and we'll try to enforce the rule."

Gawecki said he came before the board to find out what laws were on the books concerning the snowmobile.

## Change of Heart

Two years ago Congress passed a stringent gun control bill—stringent at least so far as law-abiding gun owners were concerned. As opponents of the bill pointed out at the time of its passage, restricting the fundamental right of gun ownership by all private citizens would do little to curb crime. Their prophecies have been borne out.

There are some 113 pending bills to repeal the 1968 Federal Gun Control Act outright or to modify its provisions. A survey of congressional members shows that more than a third of the Senate and a quarter of the House were by late 1970 on record in some way as favoring relaxation of the federal gun law. Correlation of this piece of legislative

## ALONG THE WAY with Annie Mae

## VISITING ANTIOCH

Gert and Les Osmond of Florida have been here visiting Helen Osmond and family and friends during the holidays.

Donna Coffill and young son David have enjoyed a pleasant visit with Donna's family, Lawrence and Marge Yopp of Rena Avenue.

Mrs. L. J. Murphy of Pasadena, Calif., was the holiday guest of Mr. and Mrs. W. C. Petty.

Mr. and Mrs. Keith Hampe and family of Connecticut visited with Walter and Beverly Shepard over the New Year's holiday. Mr. Hampe is Beverly's brother.

## ALSO RETURNED TO ANTIOCH

Mr. and Mrs. William Hanson and family have returned from a visit with their son Ron and his family in St. Louis, Missouri.

Rose Kennedy has also returned from a Christmas visit with her son Jimmie and family of Toledo, Ohio.

Mr. and Mrs. Buscher and family also returned from sunny holidays in Florida.

## IT'S TWINS

Congratulations to Mr. and Mrs. George Krueger on the birth of twin girls over the weekend. They are new residents to our area.

## GET WELL WISHES

To Mrs. Harry (Minnie) Lubeno

folly will take time. In any event it is an illustration of how easily our liberties can be infringed upon and how difficult it is to retrace the path toward freedom.

who suffered a broken hip in a fall recently and is in Victory Memorial Hospital.

Fred Hawkins is recovering from surgery at Victory.

Herman Holbek is also in Victory. While he may not have visitors, I'm sure some cards and notes will be most welcome.

BACK TO THE FROZEN NORTH are Bill and Jo Shute and family. They spent the holidays in Flor-

ida visiting Joanne's parents. Sally and Chuck Rigby and children returned from a Florida holiday with Cal and Marian Harden at Goodland.

The Gordon Silianoff family also spent their holidays in the sunny south celebrating Christmas, birthdays and anniversaries all at the same time.

If this cold weather continues I think I'll write this column from Florida next week.

Hibernating.

ANNIE MAE

## 25,000 Yet To Be Heard From On Questionnaires

Over one-half of the Illinois veterans and dependents who receive monthly Veterans Administration pension checks have answered their income questionnaires. John B. Naser, director of the Illinois VA Regional Office in Chicago, said that some 25,000 pension recipients have not yet replied to the questionnaire.

Naser pointed out that the questionnaires were mailed to the recipients with their November 1 check, and that he was pleased with the immediate response his office experienced.

The 1971 pension payments will be based on the information submitted in the pension questionnaire. Pensions are granted to veterans who have become totally disabled since their military service. Pension payments are completely separate from compensation which is awarded to veterans who have service-connected disabilities, and income from private sources is not considered in computing compensation.

Widows and children of deceased veterans may also be eligible for pension if they meet the income limitations, according to Naser. Parents of deceased veterans who receive dependency and indemnity compensation payments are also required to fill out and return the income questionnaire.

Veterans who now receive pensions but who fail to return the income questionnaire will automatically lose their entire pension payment in 1971. Naser urged that all recipients of pension payments return their completed

questionnaires at once in order to continue receiving these benefits.

Naser also pointed out that unless the questionnaire is returned, those persons who received pensions in 1970 could be directed to return all such benefits received this year, as not only the 1970 income as estimated is confirmed, but an estimate for 1971 must be made.

Under the law, in order to be eligible for the payments, the income questionnaire must be completed, Naser said. Pensioners who need assistance in completing the questionnaire may seek help at any VA office or veterans' organization.

## Motorists Praised For Safe Yule

Motorists who traveled high ways in Illinois during the Christmas holidays were commended by State John W. Lewis today for "posting an enviable safe driving record that kept traffic fatalities far below the national average."

Secretary Lewis said, "It is terribly saddening whenever there is a death in a traffic accident and particularly during the holiday just concluded. However, it is heartening to know that our highway toll is showing a year-long reduction."

Besides the extra care motorists obviously exerted during the Christmas holiday, much credit also must be given to the continuing Illinois highway rehabilitation program created by

# Taking Trip To The Sun? Here Are Hints For A Healthy Visit

Wintertime has become vacation time. Increasingly, American families seek the sun in their vacations and plan holiday trips to such warm weather places as Mexico, the Caribbean, Central and South America, even Africa and Asia.

If you're planning to follow the sun abroad this winter, make sure that your vacation is a happy one. Far too many travelers fail to take common sense health precautions before leaving home and, as a result, wind up with a medical emergency or, at the least, suffer discomfort and inconvenience.

What health precautions should you take before you set off for the tropics?

Experts in international health recommend that the time to see your family physician is as soon

as you see your travel agent. Consult your doctor at least four weeks in advance, preferably more, to allow time for immunization to become effective. Your visit should include a thorough physical checkup.

The only immunization usually required to re-enter the United States is a small pox vaccination. International regulations may call for immunizations against yellow fever, cholera, tetanus, diphtheria, polio and typhoid-paratyphoid. For children, recommended precautions and vaccinations against measles and whooping cough. Other protective injections may be required depending on the specific areas you plan to visit. Your doctor, public health service or travel agent will be able to advise you.

Travel to the tropics may pose some special health considerations. Tropical diseases have been eradicated from western countries, but still are common in underdeveloped areas, particularly if you travel off the beaten path, away from cosmopolitan cities and into rural areas.

Before heading south, it is suggested that you put together a practical medical kit so that you can easily dispatch those minor medical problems that you encounter abroad as well as at home. Your medical kit should include: insect repellent, eye

drops, suntan and skin creams, aspirin, antibiotic ointment, antacids, a fever thermometer, antihistamines, a first aid kit, a kaolin-pectin mixture for diarrhea, milk of magnesia, liquid surgical soap, antifungal powder and ointment and water purification tablets.

Your basic medical kit will save many a groan in the early morning hours when you suffer a headache or stomach upset. In fact you may find that these items are not always available if you try to buy them on the spot. Even when they can be found, the quality may be doubtful—even in the case of so-called "standard" medication like aspirin.

Be sure to bring along extra supplies of any medicine prescribed by your physician. Tuck spare eyeglasses into your suitcase. Sunglasses are a must. Supplementary salt tablets can be helpful in preventing heat disorders.

To further assure an all-around sunny holiday, experts advise: Pack light, loose fitting clothes. It's especially important in the tropics to wear comfortable clothes that will give you maximum ventilation. Wear shoes at all times because of the danger of picking up hookworms.

Be careful of the tropic sun. Bring along a sun hat or other protective head gear, and use common sense in acquiring a tan.

Be sure to put on that hat and sunglasses, and apply protective creams.

Be careful of the water. Limit your swimming to the ocean or to swimming pools. Avoid fresh water, such as lakes and streams, because of the possible danger of contracting schistosomiasis.

Be wary of what you eat. Avoid salads, sauces and milk products. Eat raw fruits and vegetables only if they can be washed in bottled or boiled water and then peeled. Don't drink fresh milk, but it first. Stay away from cold salads and bread rolls offered locally. Don't indulge in the cold platter presented in the hotel lobby in a tropical area.

Exercise caution in what you drink. Don't drink water right from the tap. Use bottled water both for drinking and brushing your teeth.

Employ moderation in what you do. Jetting through time zones can disturb your internal biological clock. The result may be headache, fatigue, irritability and loss of appetite—sometimes lasting for days. Take a bath, an aspirin or two, and a nap when you arrive at your destination, and you'll avoid a lot of discomfort. In general, take it easy on sightseeing, eating, drinking and sports.

Happy vacations are health vacations. Be sure you enjoy your time and place in the sun!

## 2½ Million Apply For State Tags

About two and one-half million Illinois motorists have yet to apply for their 1971 license plates with the deadline for displaying them on the vehicles now only six weeks away. Secretary of State John W. Lewis said today.

The deadline for having the plates mounted on the vehicles is midnight Monday, February 15, Secretary Lewis said.

At present, almost 1.6 million plates have been sold, and it is estimated that 4.3 million will be sold by the deadline. For the entire year, it is expected that 4.9 million plates will be issued.

Lewis pointed out that plates are third class mail, and require more time for delivery than first class mail. He advised motorists planning to apply for their licenses by mail to have their applications in his office no later than January 25 to allow time for processing of applications and delivery of plates in time for the deadline.

The plates may be purchased over the counter at two Secretary of State's office outlets in Springfield and three in Chicago, and also at 91 banks throughout the state, including the State Bank of Antioch.

## IRS Ready To Help You On Your Tax Return

The 1970 federal income tax forms are now on their way to your homes.

Because of the changes in the law there will be many questions asked.

The Internal Revenue Service is ready with individual assistance and telephone service to answer these questions.

The telephone service has already begun. The number to call in the Chicago area is 641-1040. Walk-in service will be available at all IRS offices.

In addition to the district office, 17 N. Dearborn St., Chicago, 19 out-lying offices will provide walk-in tax assistance.

An IRS office is located on Grand Avenue in Waukegan.

## A Lot Of Polluters

A representative of the agricultural chemical fertilizer industry and an officer of a major oil company spoke at Bend, Oregon, a short time ago on the many air, land and water resources conservation measures being pursued by industry—measures about which there is far too little public knowledge. He also touched a phase of the pollution problem that few appreciate fully—the growth of population.

He pointed out that, "Whenever man began, it wasn't until 1830 that a census could have counted a billion human beings. Now we talk of quadrupling our population in less than a century. That is a lot of people and, incidentally, a lot of polluters. In the time it took me to fly to Portland, approximately 45,000 people were added to the world's population. . . . In those few hours, we created three new cities, the size of Bend, Oregon. . . . by the time we sit down to lunch tomorrow, we will have created four new Salems."

Salem is the bustling capital of Oregon, and Bend is a large ranching, timber and recreation community in Central Oregon.

## FUNERAL NOTICES

**MRS. MINNIE EDWARDS**  
Mrs. Minnie Edwards, 91 years old of Rosecrans near Zion, Ill., passed away Sunday, Jan. 3, in Rolling Hills Manor at Zion. She was born June 29, 1879, in Kabrie, Ill., and moved to Hickory Corners in 1889, and then she and her husband operated a farm for 65 years at Rosecrans.

She was a member of Russell Camp 441 of the Royal Neighbors of America. Minnie Ames married Thomas C. Edwards on Sept. 18, 1898 in Kenosha, Wis. She was preceded in death by her husband on June 22, 1966 and by two sisters and one brother.

Survivors are one son, Charles Edwards, of Rosecrans; three daughters, Mrs. Robert (Maude) Gillings, Russell, Ill., Mrs. Winifred (Ida) Howard, Gurnee, Ill., and Mrs. Donald (Ione) Crawford, Waukegan; eight grandchildren and ten great-grandchildren.

Funeral services were held at 1:30 p.m. Wednesday at the Strang Funeral Home in Antioch. Rev. L. H. Messersmith of the Millburn Congregational Church officiated. Interment was in Mount Rest Cemetery in Newport Township.

Good spellers are maid, not born. Reely?

He didn't know it couldn't be done so he did it. . . .

## Scott Rules Person May Serve As Mayor, Sheriff

Attorney General William J. Scott held in an opinion issued today that a person may legally serve as both Mayor and Sheriff. The opinion was requested by State Attorney Alvin H. Pettit of Jersey County.

Scott stressed, however, that incompatibility may arise where the faithful performance of duty within a designated office prevents or interferes with that of another office. Such circumstances would forbid any one person from holding both offices simultaneously. Scott's opinion pointed out that incompatibility may also occur where specifically prohibited by either the Constitution or statutory law.

Scott said, "I find no specific Constitution or statutory provision which makes said offices incompatible. Consequently it is my opinion that the office of Sheriff is compatible with that of Mayor."

## UCS Funds Used In Fight Against Social Diseases

Six hundred dollars per year of the Lake Countians' money goes to an agency outside of Lake County, and outside of the State. What's the name of the agency, and why does United Community Service allow funds to leave the community?

It's American Social Health Association and the work it does provides a service to everyone, regardless of his place of residence.

True, American Social Health Association is an avant-garde agency, although one of the oldest national voluntary health agencies in the nation. The value of a national health agency is often measured by its visibility and emotional appeal. There can be no such simple measurement of ASHA.

Attitudes toward venereal disease and prostitution do not evoke a favorable response or public clamor as do polio, heart and cancer. Drug abuse does not lend itself to "instant" solutions such as surgery, an organ transplant, immunization or a television spot announcement campaign.

The problems with which ASHA is concerned require long range solutions (it took 20 years to get venereal disease out of the dirty-word department) because they are fraught with social stigma, personal privacy and complex behavior patterns.

ASHA is seldom "seen" in the local community because it has no local chapters or offices. It can best perform its services from the regional level because its

mission is to provide leadership through research, information, and consultation services to local agencies (i.e., public health, school and police departments, youth agencies, the media, churches and colleges.) In practically every instance, ASHA service is invisible to the public eye because its work emerges to the surface within the identity and program of the local agency being served.

Change is constant today, ASHA helps local agencies keep in tune with the times by bringing to them the latest facts, new trends and improved techniques for dealing with complicated social health problems.

## Owner Faces Fine If His Dog Continually Barks

The new Stray Animal and Rabid Control Ordinance makes it unlawful for a person in any area of Lake County to keep an animal that frequently or habitually disturbs the peace by barking or making other loud noises.

Other important aspects of the ordinance are:

—All dogs in Lake County over four months of age must be vaccinated against rabies annually, if a one-year vaccine is used, or triennially, if a three-year vaccine is used.

—The tag fee for a one year vaccination is \$1; the fee for a three-year tag is \$3.

—All dogs, cats and other animals kept in any area of Lake County, other than the private premises of the owner, must be confined by means of a secure leash or chain, or confined within a fenced area.

—Home confinement of biting animals is permitted if the animal was vaccinated against rabies more than 30 days ago prior to the biting and less than one year if a one-year vaccine was used or three years if a three-year vaccine was used, provided

that the animal is examined by a licensed veterinarian at the beginning and at the end of the 10-day confinement period.

Violations of the ordinance provide for a penalty of not less than \$25 nor more than \$100. Every day that a violation exists is a separate offense, the ordinance says.

Robert J. Flynn, Lake County veterinarian rabies inspector said home confinement is allowed under the following conditions:

—The biting animal was inoculated against rabies more than 30 days prior to the biting (if an initial vaccination) and less than 1 year if a one-year vaccine was used or less than 3 years if a three-year vaccine was used.

—The owner presents the biting animal to a licensed veterinarian for examination at the beginning of the period of confinement and the animal is found to be free of signs of rabies.

—The owner agrees to confine the animal for 10 days in a manner that will prohibit it from escaping and from biting any person or other animal during the period of confinement.

immediately the Lake County Department of Rabies Control if the biting animal should become ill, die or escape during the 10-day confinement period.

—The owner agrees to present the animal for reexamination by a licensed veterinarian within 24 hours after the completion of the 10-day confinement period.

Home confinement is not permitted under the following conditions:

—The biting animal was not currently vaccinated against rabies at the time of the bite.

—The biting animal received its initial rabies vaccination less than 30 days prior to the bite.

—The bite occurred while the biting animal was under home confinement for a prior bite.

—The biting animal shows signs of neurologic illness.

—The owner does not present the animal to a licensed veterinarian for examination at the beginning of the period of confinement.

—The owner does not agree to confine the animal for 10 days in a manner that will prohibit it from escaping and from biting any person or other animal during the period of confinement.

—The owner does not agree to notify immediately the Lake County Department of Rabies Control if the biting animal should become ill, die or escape during the 10-day confinement period.

—The owner does not agree to present the animal for reexamination by a licensed veterinarian within 24 hours after the completion of the 10-day confinement period.

—The attending veterinarian questions the reliability and capability of the owner to provide facilities which are adequate to preclude escape of the animal.

—The attending physician requests hospital confinement of the biting animal.

—The Rabies Inspector judges the circumstances to be such that the animal should be confined in an animal hospital.

## Motorists Praised...

(Continued from page two)

Gov. Richard B. Ogilvie, Lewis stated. "Under the Governor's road program more than 3,000 miles of deteriorated roads have been improved and more than 100 narrow bridges widened in the past two years resulting in much safer highways."

The state's highway safety slogan is "Drive Alert in Illinois." Secretary Lewis reminded motorists.

Illinois ranked 15th in the nation in traffic fatalities during the three-day Christmas holiday with 13 deaths reported. Lewis pointed out that California led the nation with 49 traffic deaths. Other states exceeding the Illinois death toll included Texas, Missouri, North Carolina, Pennsylvania, New York, Indiana, Florida, South Carolina, Tennessee, Virginia, Georgia, Michigan, Ohio and Oklahoma.

## Social Notes

By Del Jahneke

Mrs. Frank Kennedy, N. Main Street, returned on Saturday from Toledo, Ohio, where she spent two delightful weeks at the home of her son, James Kennedy and family.

All the friends of Anton Johnson, Lake Catherine, are happy to learn that the eye surgery he recently underwent at the Veterans Research Hospital in Chicago was successful.

On New Year's Day, the Bernard DeVries, North Ave., entertained the Dan Martin family from North Chicago, and Robert Janunas from Waukegan.

The Robert H. Dunlap, Jr., family, Grass Lake, were Sunday dinner guests at the Dr. Robert Pauletti home, Grass Lake Road.

Tobogganing o'er the "hills and dales" of Fox River Park, Wilmet, provided a merry time for approximately 24 Girl Scouts from Troop No. 144, Antioch. Afterwards, the girls and their leaders enjoyed hot chocolate and cookies in a picnic shelter. Accompanying the girl scouts were Mrs. Richard Ford, leader; Mrs. Bernard DeVries, Mrs. Kay Arneson, Mrs. Carolyn Korando and Mrs. Ann Venn.

## NIU Sets Winter Carnival Dates

March 13 to 20 has been set as the week for Northern Illinois University's Winter Carnival.

The carnival is one of three big campuswide events held each year, ranking in importance with Homecoming and May Fete.

Intramural competition between 70 water polo teams at the University of Illinois at Urbana-Champaign makes the program the biggest in the country at one school.

Mr. and Mrs. Richard W. Alshouse

## Joyce Herman Weds Zion Sailor In Lutheran Church

Richard W. Alshouse, son of Mr. and Mrs. William Alshouse of 2303 Jethro Ave., Zion, and Joyce M. Herman of 451 Orchard St., Antioch were married Dec. 19 in a double ring ceremony in Faith Lutheran Church.

The Rev. David Ponath officiated at the afternoon wedding which was followed by a reception attended by 200 in the church

parlor. The bride, daughter of Mr. and Mrs. James Herman, was given in marriage by her father. She wore a long, A-line dress of organza with empire waist, lace bodice with sweetheart neckline and chapel train. She carried a cascade bouquet of red roses and Stephanotis.

Her sister, Linda, was maid of honor. Another sister, Lois, was an attendant.

Best man was Thomas Bullen. An attendant was Thomas Toomey.

Ushers were Charles Herman, brother of the bride, and Robert Oakes, cousin of the bridegroom. The bride, a graduate of Antioch High School, attended Wisconsin State University at Whitewater. Her husband graduated from Zion-Benton High School and attended Northern Illinois University.

The couple are making their home in Jacksonville, Fla., where the bridegroom is stationed with the United States Navy.

VA's Predischarge Education Program (PREP) helps servicemen on active military duty earn high school diplomas in order to prepare them for higher education or vocational training.

The University of Illinois Library is the largest of any state university, third among all American university libraries and fifth among all the nation's libraries.

Call 395-4111 to place a Society or News Item.

## Topics for Today's Women

Thurs., January 7, 1971 THE ANTIOCH NEWS

### American Legion Auxiliary News

By DEL JAHNEKE

"Let's start the New Year right with a 100% membership for the 10th District American Legion Auxiliary in the very near future," resolves Mrs. Joseph Hogue, Waukegan No. 281, District Membership Chairman. "We already have two 'goal' units—Lake Forest and Lake Zurich—Units who have exceeded their 100% membership, and two units who are 100%, Highwood and North Chicago. Nearly 78% of our anticipated 2,200 membership has already been paid, with several other units close to attaining 100%," Mrs. Hogue continues.

According to Mrs. Lester Zilkus, Antioch unit membership chairman, the Antioch Unit only needs seven more members to be a 100% Unit.

Membership is always stressed in the American Legion Auxiliary, since it is only through their large membership, that they are enabled to carry their many fine plans to completion.

In order to be eligible for membership in the Auxiliary, the applicant must either be the wife, mother, daughter, sister or granddaughter of a Legionnaire; the wife, mother, daughter or sister of a veteran who died in service during World War I, World War II, the Korean Conflict or the Vietnam War, called a gold star member; the widow, mother, daughter or sister of a veteran who served during any of the named wars and is since deceased. This veteran need not have been a Legionnaire. The last eligibility is for any ex-service women who served in any of the four wars.

Eligibility dates as set by Congress are World War I—April 8, 1917 to November 11, 1918; World War II—December 7, 1941 to September 1, 1945; Korean War—June 25, 1950 to July 27, 1953; and the Vietnam War eligibility date set by the American Legion is from August 5, 1964 to the present time.

"Much happiness and satisfaction is to be gained in volunteer work done for the disabled veteran, a veteran's indigent widow and his dependants, in the foster-

ing of Americanism and patriotism, performing useful and needed child welfare work and many other community service projects," Mrs. Hogue said.

"By joining the American Legion Auxiliary, one of the largest service organizations in the world (Nearly one million members) you enrich your own life by bringing happiness to others less fortunate than yourself."

Eligible women are asked to contact the President or Membership chairman of the Auxiliary in their locality. The Antioch Unit President is Mrs. John W. Horan and the membership chairman is Mrs. Lester Zilkus.

The Antioch American Legion Auxiliary No. 748 will be holding their regular meeting on Monday, January 11th, at 8:00 p.m., at the Antioch American Legion Home. Mrs. J. W. Horan, President, will conduct the meeting.

Hostesses will be Mrs. Joseph Horan, Chairman, Mrs. Clarence Larson and Mrs. Harold Ellis.

## Antioch Couple Are New Parents In Okinawa

Mr. and Mrs. Richard Eterno (the former Sharon Zmuda) are the proud parents of an 8 pound baby boy born Dec. 4 in Okinawa. They named him Michael Brandon. The maternal grandparents are Mr. and Mrs. Walter Zmuda of rural Antioch, and the paternal grandparents are Mrs. Victoria Eterno and the late Dr. John Eterno of Hickory Hills.

Sharon and her husband, Richard, are living in Koza City, Okinawa since last May. Richard is serving in the Army Headquarters at the Ryuku Islands. They expect to be back in the United States in the latter part of this year.

For best value in detergents, choose one with a high phosphate content; no substitute is as good as phosphate for gently cleaning out the dirt. A good brand name is your best assurance of a high phosphate content.

Need new decorations for a child's room? Cut the illustrations off greeting cards you receive, then let the child montage them on one wall!

Terminal dates for VA home loans for all vets serving after Jan. 31, 1955, have been eliminated.

### CHRISTIAN SCIENCE CHURCHES

A communion service will be held at Christian Science churches this Sunday.

Scriptural readings in the Lesson-Sermon entitled "Sacrament" will include these words of Christ Jesus: "Sanctify them through thy truth: thy word is truth."

What genuine communion requires will be brought out in passages to be read from "Science and Health with Key to the Scriptures" by Mary Baker Eddy, one of which states: "The purification of sense and self is a proof of progress."

Services at First Church of Christ, Scientist, BEACON HILL, Rte. 173 and Harden, Antioch, Illinois, begin at 11 a.m. All are welcome.

## "STAND FAST — HEALING MUST COME!"

Listen this Sunday to the Christian Science Radio Series for some interesting insights on this question.

THE TRUTH THAT HEALS

## Mental Health Fund Goal Shy \$10,000

Marvin Chandler, chairman of Northern Illinois Gas Company and general chairman of the 1970 mental health campaign, announced today that \$10,000 is still needed to meet the 1970 mental health goal of \$300,000.

The campaign was launched last May, and since then \$290,000 has been raised. Funds support the Mental Health Association of Greater Chicago's five-point program on behalf of the mentally ill with activities in the fields of service, planning, education, action and research.

Chandler said that unless the balance is raised, some Association programs will have to be curtailed. In light of the growing incidence of mental and emotional illness among people of all ages, especially children and adolescents, these cuts would be disastrous.

## Survey Will Cover Home Improvements

Questions on consumer buying and home improvement expectations will be asked by representatives of the Bureau of the Census in this area during January according to Curtis T. Hill, Director of the Bureau's regional office in Chicago.

The questions are asked four times yearly as part of a nationwide effort to collect information as a guide to Federal agencies and other groups in developing programs based on consumer spending patterns. A sample of residents in this area will be asked if they expect to buy a house, car, or major appliance during the next year and if they have made recent purchases of these items. Homeowners will be asked about home improvements and repairs during the last three months and any planned for the future.

In the third quarter of 1970, the survey indicated that consumer spending plans were little changed from the second quarter, while the percentage of families expecting their incomes to decline within 12 months had increased for the fourth quarter in a row.

Information supplied by individuals participating in the survey is kept confidential by law and will be published only in the form of statistical totals.

## Carmel Slates Tests

Antioch and Lake Villa boys and girls planning to attend Carmel High School for Boys and Girls next fall will be able to take placement tests starting at 8:30 a.m. Saturday.

A bus will leave St. Peter's Church, 559 Elizabeth Ave., at 7:25 a.m. and Prince of Peace Church, Rtes. 21 and 132, Lake Villa, at 7:45 a.m.

Each student, taking the high school placement test, is required to post \$15 for registration and bus fees.

In the event a student is ill, he should take the test in the public school and the results sent to Carmel.

Results of tests and future suggestions and directions for registration for courses in the fall will be mailed to each student sometime during the month of March. Carmel School officials said it might be necessary to increase tuition at the school next year.

VA will pay tutoring fees of up to \$50 monthly for a maximum of nine months to prevent eligible vets and servicemen studying under the GI Bill from failing essential subjects.

It's easy to place a classified—Just dial 395-4111.

## CLC Graduate Receives Award

Mrs. Jo Ann Brewton, a graduate practical nurse of the College of Lake County, received the "E. Tally Jacobson Award" from the CLC Practical Nursing Program. This award is given to the outstanding student of the year.

In June, 1967, Jo Ann began working as a part-time nursing assistant at St. Therese Hospital in Waukegan and continued to work part time while attending nursing school. After her graduation from the College in August, 1970, Mrs. Brewton became a full-time member of the St. Therese Hospital nursing staff.

# Good intentions never saved a penny.

It takes a commitment to save money. To your family, to the future. And maybe to your country. Good intentions just aren't enough.

That's why the Payroll Savings Plan works so well. It's a way of saying "I'm committed."

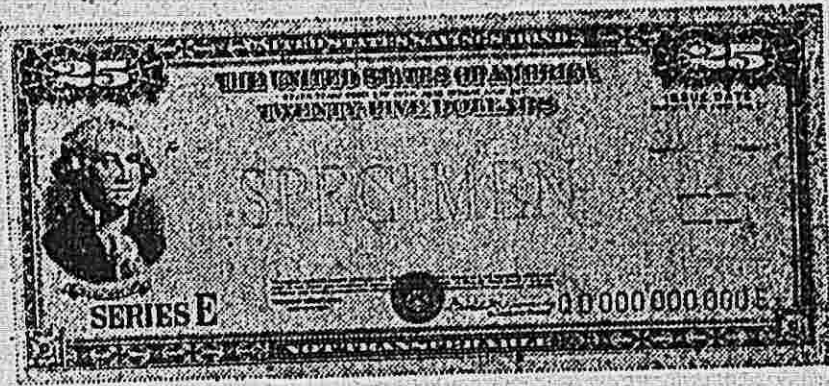

And it's almost effortless. All you do is sign up once, where you work. Then the amount you specify is automatically set aside from your check each payday and put into U.S. Savings Bonds. You have automatic saving power.

After all, it's hard to spend money you don't touch.

Oh, you'll touch it someday. For that house, or dream vacation, or for your kids' college education.

And now there's a bonus interest rate on all U. S. Savings Bonds—for E Bonds,  $5\frac{1}{2}\%$  when held to maturity of 5 years 10 months (4% the first year). That extra  $\frac{1}{2}\%$ , payable as a bonus at maturity, applies to all Bonds issued since June 1, 1970 . . . with a comparable improvement for all older Bonds.

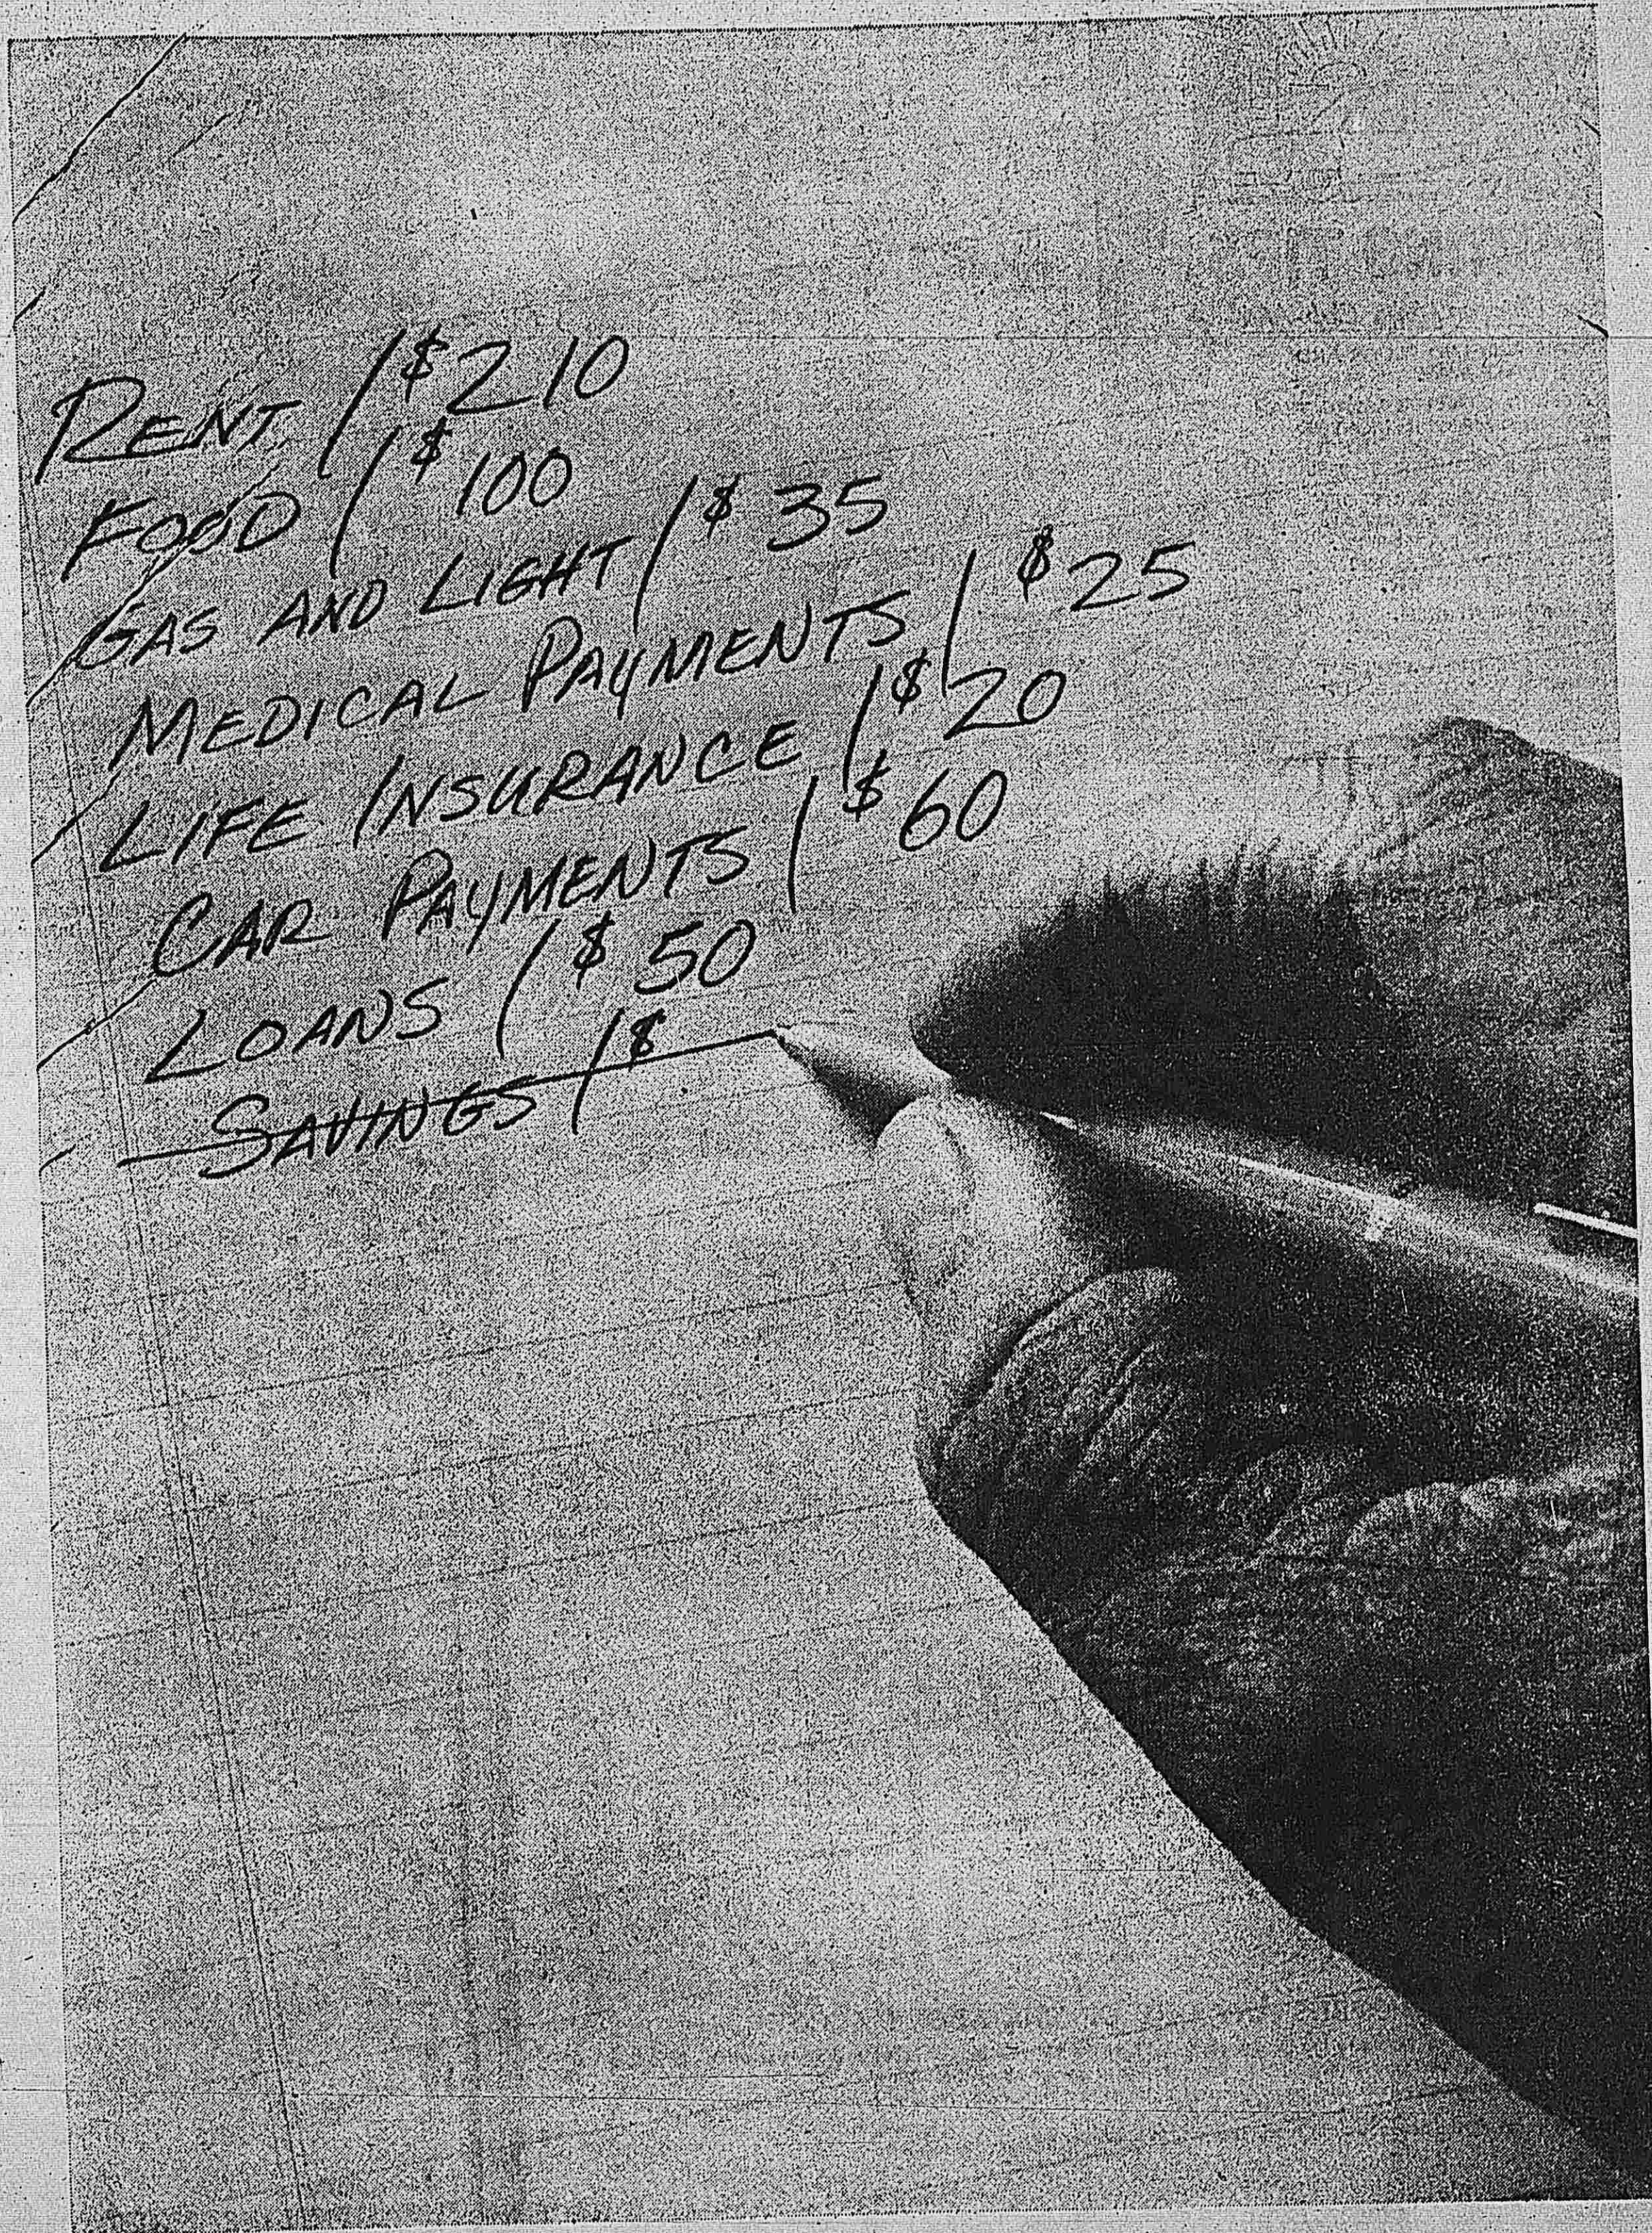

So think it over. The Payroll Savings Plan. It's a small effort, but it's a big commitment. For you and your country.

Bonds are safe. If lost, stolen, or destroyed, we replace them. When needed, they can be cashed at your bank. Tax may be deferred until redemption. And always remember, Bonds are a proud way to save.

**Take stock in America.**  
With higher paying U.S. Savings Bonds.

# Sequoits Upend Winnebago For Consolation At Rockford

(By the Sixth Man)

For the second time in the past two years, the Antioch Sequoits have met opponents in the consolation championship. This time Antioch upended Winnebago in the final game to win the consolation championship as well as a trophy.

In the championship game, I felt we handled Winnebago quite easily. As a whole, the team was fundamentally sound, both in defense and offense. We played the good shot and denied our opponents the good shot. I don't feel Winnebago was a tough team. In the consolation bracket I thought

Fulton provided us with the toughest opposition.

Keith Bolton again did the job for Antioch. Keith not only played a key role in the consolation championship but broke 3 all time scoring records in the Rockford Classic. Keith's record now stands as follows: Most points, four games, 105; most field goals, tournament, 42; most field goals, one game, 18.

Our only loss was to Rockford Boylan. Turnovers appeared to be the whole problem, as Boylan outscored us by a wide margin in the first quarter. I felt the problem was brought out by Tim Mieuire's bad passing. It wasn't

all Tim's fault, though—the rest of the team didn't meet the pass to relieve the pressure off Tim. After the big lead by Boylan we just couldn't catch up.

In the next 3 games Tim Mieuire showed some poise as he and Steve Bentel cracked the presses that our opponents put on us.

Tom Martin also was a pleasant surprise as he reached his offensive high against Winnebago with 20 tallies.

The Antioch Sequoits now boast a 3 and 1 record in the Rockford Classic and a 9 and 4 record over all.

Team goals for this year's club range from victories over Grant and Zion to being a 20 game winner.

### Veterans Questions, Answers

Q—For several years after the death of my husband, I received widow's pension from the Veterans Administration. When I remarried, the pension stopped. My second husband, who was not a veteran died recently, and I was left without sufficient income to provide for my support. Is it possible to have my pension restored?

A—Yes, if you are otherwise qualified for benefits, you may reapply for death pension benefits. A change in the law effective Jan. 1, 1971, permits restoration of death pensions to widows who remarry and this marriage is terminated by death or divorce.

Q—I did not complete high school, but was accepted as a college student under the G.I. Bill on the basis of a General Equivalency Diploma test. I now find that I am having trouble with some subjects and cannot keep up with my class. I have been advised to seek special help. Can VA help me?

A—Yes, if your school certifies that you need tutorial help to avoid failing a course, you may receive up to \$50 a month for nine months to pay a qualified tutor. Application should be made to the VA on Form 21E-1990T.

Q—Several years ago I elected to receive Army retirement benefits rather than VA disability compensation. Is it too late to change now?

A—No. There is no deadline for changing to compensation from VA in lieu of retired military pay. However, you must undergo a VA medical examination to determine the degree and nature of your disability and the amount of compensation to which you are entitled. You can make arrangements for this examination through the nearest VA office.

Q—I am currently training as an apprentice under the G.I. Bill.

As a part of my training my employer has asked me to take a correspondence course. Will VA pay for the lessons completed through correspondence, in addition to providing the allowance under the apprenticeship program?

A—No. You cannot be paid for a correspondence course at the same time you are pursuing training under an apprenticeship program.

Q—I am a 74 year old, honorably discharged veteran who served in the Army less than 90 days, from Oct. 23, 1918, to Jan. 6, 1919. Am I entitled to VA hospital or medical care? Also if I should die before my wife, who is also 74, is she eligible for any benefits from the VA?

A—War veterans who were discharged under other than dishonorable conditions may receive hospital care from the VA on a bed-available basis for treatment of their nonservice-connected conditions. You may make application by reporting to the nearest VA hospital for examination. If this is not convenient, complete VA Form 10-P-10 with the assistance of your physician, and mail to the nearest VA hospital.

To be eligible for pension, however, a veteran must have served 90 days or more, part of which must have been during wartime, unless discharged sooner for line of duty disability, and must have been discharged under other than dishonorable conditions.

Eligible widows and children of deceased veterans may be eligible for death pension benefits provided the veteran meets the service requirements stated above.

Q—My father died in wartime service. I am 20 years old and going to college under the War Orphans Educational Assistance Program. I earned \$800 last year. Will that prevent me from receiving VA benefits?

A—No, there is no limit on your earned income.

### Another First At The...

### First National Bank of Antioch

It Helps Your Money Grow Three Ways!  
Now you can choose the interest you'd like your savings to earn: 5%, 5 1/2%, Even 5 3/4%. And it's all in one book. In First National Bank of Antioch's new Golden 3 Passbook that offers savers three interest rates in one book.

90 DAY PLAN

5%

1 YEAR PLAN

5 1/2%

2 PLAN YEAR

5 3/4%

Great. Just agree to keep your money on deposit for one full calendar quarter. We'll enter your deposit in the appropriate section of the Golden 3 Passbook, and it'll begin earning interest from your day of deposit. Think it over. 5% is a handsome return. Yet, your funds are accessible. Withdrawals permitted anytime during the first ten days of any quarter after the funds have been on deposit for a full calendar quarter.

You're still in the book. Just tell us you'll keep your money in the bank for one full year from the start of the next quarter. The deposit is entered in the 5 1/2% section of the Golden 3 Passbook, and every dollar starts earning a 5 1/2% return from that day on. (A very logical way to save money for those projects you know are a year or so away. Like maybe a vacation trip to Europe?)

You guessed it! You're in the book. Tell us you'll leave your funds on deposit for two full years from the beginning of the next quarter. We'll make an entry in the 5 3/4% part of the Golden 3 Passbook, and you'll see your money earn that great rate from the day of deposit. (What better place to put those dollars earmarked for long term projects. Such as, to suggest but one, money for the kid's college education!)

### JUST \$100 OPENS ANY ONE OF THE ABOVE ACCOUNTS

And you can make the first deposit to the 90 day plan (5%), or the one year plan (5 1/2%) or the two year plan (5 3/4%). Additional deposits may be made at any time in any amount in any or all of the 3 plans. Interest is continuously compounded and paid quarterly... may be withdrawn, credited to another account or left to accumulate.

Why wait? Start saving the newest way in town. The Golden Passbook way.

NOTICE:

Closing out china. We still have available some units.

## G.I. Bill Benefits Available To Veterans

Many veterans who served in the armed forces between Jan. 31, 1955 and March 3, 1966 may not realize they are eligible for educational benefits under the G. I. Bill, it was pointed out today.

John B. Naser, director of the Chicago Regional Office of the Veterans Administration noted that the current G. I. Bill was not enacted until March 3, 1966. However, he explained, the law's provisions cover veterans who served after January 31, 1955 as well as those who have served since the law was passed.

"To be eligible for educational benefits," Naser said, "these veterans must have been released under other than dishonorable conditions after more than 180 days of active military duty, any part of it after Jan. 31, 1955."

Naser pointed out that there were exceptions on the length of service, as a veteran released for a service-connected disability is eligible for the benefits regardless of the actual time served.

Naser also expressed concern that an undetermined number of wives and widows of deceased veterans or veterans totally disabled by service-connected injuries may be missing out on educational benefits.

He noted a law passed in 1956 extended educational assistance to children of such veterans as far back as the Spanish-American war.

"Wives and widows did not be-

come eligible until the law was amended in December 1968, and many may not be aware of the change," Naser explained.

He urged veterans interested in training, whether they have served during the Vietnam Era or in their service was between Jan. 31, 1955 and March 3, 1966, to contact the VA. Wives, widows and children of deceased or totally disabled veterans who wish educational benefits should let the VA know.

In Chicago, the VA office is located at 2030 West Taylor Street. Those out of the city may write the VA for full information at that address, inserting P. O. Box 8136, Chicago 60680.

### A New Combination For Remodeling

Older home remodeling is on the upswing as more and more families undertake the task of modernizing the interior of their homes while maintaining the beautiful, dignified exterior. And in these remodeling programs, easier, more convenient methods of improvement with reduced labor costs are being sought.

The KitchenAid Dishwasher Division of The Hobart Manufacturing Company has developed an exclusive electric dishwasher-sink combination which measures a module 48" wide and can be quickly and efficiently installed in place of an old sink and by utilizing existing plumbing facilities.

The unit gives the home owner a shiny new sink and cabinet and a new automatic home dishwasher — all in one compact package. The dishwasher-sink combination comes in two models, the economical Custom and the top-of-the-line Superba-VariCycle.

The dishwasher also has cycles for other normal dish and tableware cleaning, plus party cycles for light or heavy loads, and a plate warmer for pre-heating plates for elegant dining.

The cabinet of the dishwasher-sink combination is a clean, white porcelain enamel on steel top and sink bowl. It can also be equipped locally with a stainless steel sink top or a plastic laminate top.

For the family that wants a "modern" kitchen in the minimum amount of space, a KitchenAid disposer and an instant-hot water dispenser can easily be added — making the same 48" single unit an "all-in-one" center for meal preparation and clean-up. The food waste disposer features a virtually jam-proof, electronic device and safety-start control. Instant water dispensers provide "teakettle" hot water, up to 190 degrees, at the turn of a knob for preparation of instant foods and beverages.

Here is an all-in-one combination designed for home owners who want to avoid a total new kitchen — yet enjoy the latest in built-in appliances.
